MEMORANDUM FOR: Colonel White

SUBJECT : Potomac Recreation Association Revenue from  
Vending Machines

STATINTL

1. Mr. Reynolds, in his capacity as President of the Potomac Recreation Association, has now asked, in accordance with [REDACTED] that he be given permission to discuss with the Office of Logistics and the GSA the possibility of the Potomac Recreation Association owning and operating the vending machines used throughout Agency buildings other than those operated by the Washington Society for the Blind. He advises that on 24 August 1955 the General Counsel stated that no change in legislation has occurred and that therefore the Opinion of the Comptroller General issued in 1952 is still valid, thus permitting employee groups to retain the proceeds from the operation of the machines rather than submit them to the treasury as miscellaneous receipts.

2. It would seem to be in order to permit the Potomac Recreation Association to open negotiations. I wonder, however, inasmuch as any action taken now on this matter will be good for a number of years, whether this should be considered by the Steering Committee on the new building prior to granting concurrence to the Potomac Recreation Association to proceed in this manner.
